| Division | Cancer Services and Information |
| Location | Australian Technology Park |
| Classification/Grade/Band | Health Manager Level 3 |
| Kind of Employment | Ongoing |
| ANZSCO Code | 224113 |
| Role Number | 685767 |
| PCAT Code | 2129192 |
| Date of Approval | 25 August 2018 |
| Agency Website | www.cancer.nsw.gov.au |

Overview

The Cancer Institute NSW is Australia's first statewide cancer control agency, established to lessen the impact of cancer in NSW. The Institute supports and promotes best practice; working to ensure people across the state, no matter where they live, are provided the same high quality treatment and care that is vital to optimising the outcomes and quality of life for people diagnosed with cancer.

Driven by the purpose and objectives of the NSW Cancer Plan, the Institute continuously works to:

- reduce the incidence of cancer
- increase the survival rate for people with cancer
- improve the quality of life of people living with cancer
- provide a source of expertise on cancer control for the government, health service providers, medical researchers and the general community.

In order to achieve this, the Institute engages with the community, health professionals, researchers, governments and charity organisations to:

- provide information, resources and advice about preventing cancer
- promote the importance of early detection through cancer screening programs and community awareness
- provide grants that build research capacity and foster innovation in, and translation of, cancer research into improved cancer outcomes
- maintain quality information repositories about cancer in NSW to inform future policy and health planning
- establish partnerships with cancer healthcare professionals to develop and evaluate programs to improve the quality of cancer treatment and care in NSW.

Primary purpose of the role

Provide expert epidemiological input into the research, monitoring and evaluation activities of the Institute to inform program development and support the achievement of Cancer Plan objectives. Work collaboratively with both internal and external stakeholders to ensure research initiatives meet stakeholder needs.

Key accountabilities

- Engage and collaborate with health professionals within the Institute and external key stakeholder organisations to ensure research initiatives meet stakeholder needs.
- Contribute to the identification of key cancer research requirements, including major obstacles, issues and problems.
- Communicate epidemiological findings through the preparation of technical and non-technical reports, peer-reviewed journal publications and presentations to support the delivery of high quality cancer related evidence and information to a diverse range of stakeholders.
- Contribute to the development and implementation of research initiatives that align with stakeholder needs to inform the development of high quality cancer control services.
- Lead the development and implementation of quality processes for statistical analyses to ensure the production of reproducible, high quality research.
- Develop reports and undertake analytical projects to advise stakeholders on epidemiological and cancer research related issues to support achievement of the Institutes key strategic objectives for cancer control.
- Develop reports, correspondence, briefings and responses to the parliament, media, researchers and the public to respond to enquiries relating to cancer.
- Undertake complex quantitative analyses to produce high quality epidemiological data and information to inform the development, monitoring and evaluation of cancer control initiatives and reduce the incidence and mortality of cancer.
- Maintain and develop knowledge of analytical and epidemiological methodologies, and implement new techniques to enhance the research and analysis capabilities of the Institute.
- Provide guidance, supervision and manage team priorities

Key challenges

- Managing a number of activities concurrently, given the context of high work volumes and demands for accurate and expert responses to complex issues, requiring the integration of diverse sources of information.
- Delivering consistently high quality epidemiological reports and analyses given the need to respond to ad hoc requests for information at short notice.
- Interpreting and communicating results of complex analyses, given the requirement to tailor information to cater to both technical and non-technical audiences.

Key relationships

| Who | Why |
|--|---|
| Internal | |
| Institute Executive | Advise on epidemiological and cancer research related issues on an ad hoc and project basis, to help inform Cancer Institute NSW's strategic direction, decision making, and communication with external stakeholders |
| Manager Cancer Analysis and Statistics | Receive guidance and advice, and provide updates and information on the progress of projects |
| Manager Data and Reporting | Advise on data specifications for automated reporting, and support the transferral of analyses to the Data and Reporting team for routine reporting |
| Direct Reports | Provide guidance and supervision and manage team priorities |
| External | |
| Interstate Cancer Control Agencies | Collaborate on the establishment of national cancer benchmarks |
| Clinicians | Seek advice on clinical interpretations and engage them in analysis to increase validity, acceptance and impact of results |
| Other External Stakeholders | Liaise to ensure research questions and results are clinically relevant; propose research initiatives that both extend existing program and involve new areas of cancer research |

Role dimensions

Decision making

- Accountable for determining and managing own priorities and workload.
- Accountable for overseeing workload, allocating resources and monitoring team performance.
- Responsible for delivery epidemiological research and related activities within agreed timeframes, budgets and quality standards.
- Exercises discretion and judgement in providing advice and responding to enquiries and correspondence, escalating any contentious issues to supervisor.

Reporting line

The Senior Epidemiologist/Team Leader reports to Manager Cancer Analysis and Statistics

Direct reports

The Senior Epidemiologist/Team Leader has 1-3 direct reports

Budget/Expenditure

N/A

Essential requirements

- Experience in communicating epidemiological concepts and results to peers and non-technical stakeholders.
- Demonstrated experience in the application of statistical techniques including survival analysis, generalised linear models and multi-level models.
- Demonstrated experience in working with large linked State and Commonwealth administrative data sets.
- Strong computing and analytical skills using databases and statistical programming and the software packages SAS and STATA.
- Knowledge of health care systems and the principles underlying health service information systems applicable to cancer control.
- Appropriate tertiary qualifications in epidemiology, public health, statistics, biostatistics or health information.

Capabilities for the role

The NSW Public Sector Capability Framework applies to all NSW public sector employees. The Capability Framework is available at www.psc.nsw.gov.au/capabilityframework

This role also utilises an occupation specific capability set.

Capability summary

Below is the full list of capabilities and the level required for this role. The capabilities in bold are the focus capabilities for this role. Refer to the next section for further information about the focus capabilities.

| NSW Public Sector Capability Framework | | |
|--|---------------------------------|--------------|
| Capability Group | Capability Name | Level |
|  Personal Attributes | Display Resilience and Courage | Adept |
| | Act with Integrity | Adept |
| | Manage Self | Adept |
| | Value Diversity | Intermediate |
|  Relationships | Communicate Effectively | Adept |
| | Commit to Customer Service | Intermediate |
| | Work Collaboratively | Intermediate |
| | Influence and Negotiate | Adept |
|  Results | Deliver Results | Adept |
| | Plan and Prioritise | Adept |
| | Think and Solve Problems | Adept |
| | Demonstrate Accountability | Adept |
