## Agency overview

The Department of Regional NSW was formed in 2020 as a central agency for regional issues. The Department has responsibility for building resilient regional economies and communities, strengthening primary industries, managing the use of regional land, overseeing the state's mineral and mining resources and ensuring government investment in regional NSW is fair and delivers positive outcomes for local communities and businesses.

Local Land Services (LLS) is an Executive Agency related to the cluster. It provides quality, customerfocused services to landholders and the community across New South Wales. This regionally-based organisation brings together a wide range of service and advisory functions including agriculture, biosecurity, natural resource management, land management, biodiversity, emergency services, private native forestry and the Soil Conservation Service.

#### Primary purpose of the role

This role delivers front line services to farmers and community that help them manage our landscapes to be healthy and productive including the provision of natural resource management and agricultural productivity information, advice and extension services; management of natural resource management and agricultural productivity projects; delivery of emergency planning, preparedness, response and recovery services; development of partnerships and collaboration; negotiation and resolution of natural resource management and agricultural and agricultural productivity issues; and monitoring, evaluation, reporting and improvement of programs and projects.

## Key accountabilities

- Provide timely and effective frontline advisory and extension services
- Manage natural resource management and agricultural productivity projects, ensuring best-practice governance
- Collect and collate data, analyse information and provide accurate and appropriately balanced advice, reports and recommendations on natural resource management and agricultural issues
- Build partnerships and support collaboration to address natural resource management and agricultural productivity issues

- Support emergency management by assisting with activities to prevent, prepare for, respond to and recover from emergencies
- Support the implementation of relevant legislation and policy

### Key challenges

- Delivering integrated services in a complex team and business environment while balancing a range of conflicting and competing priorities and projects in an environment of high workload, rigorous accountability, strict deadlines and high community expectations
- Managing conflicts between natural resource users and negotiating solutions to complex natural resource management and agricultural productivity issues
- Performing field work such as inspections and assessments in all conditions and terrains, including in emergency response situations
