Agency overview

The Department of Regional NSW was formed in 2020 as a central agency for regional issues. The Department is responsible for building resilient regional economies and communities, strengthening primary industries, managing the use of regional land, overseeing the state's mineral and mining resources and ensuring government investment in regional NSW is fair and delivers positive outcomes for local communities and businesses.

Public Works Advisory (PWA) is part of the Department of Regional NSW. PWA supports local and state government agencies to deliver critical infrastructure initiatives by providing expert advisory, planning, delivery and support services. We bridge the gap between the government and the private sector, helping clients to maximise value, optimise costs and manage risks in their infrastructure programs and the lifecycle management of their assets.

Primary purpose of the role

Assists higher level Project Manager(s) with the planning and/or delivery of a range of assigned infrastructure project tasks, or may manage small scale infrastructure projects with low to medium risk and complexity in order that time, cost, quality, safety, environmental targets and the region's business objectives and client expectations are met.

Key accountabilities

- Plan and deliver assigned infrastructure projects with low complexity in accordance with standard organisational procedures by seeking guidance from a more experienced project manager when required.
- Participate in planning sessions and conduct project tasks under the leadership of a Project Manager to contribute to infrastructure planning and delivery.
- Actively participate in and contribute to project and team meetings and other forums to discuss project progress, issues and to ensure the successful achievement of individual and project targets to contribute to business performance.

- Develop and maintain a good understanding of industry trends and practices, and Government policies and regulations to provide asset advice to clients, senior management and project managers providing excellent outcomes for clients and maintain strong working relationships
- Be responsive and accurate with all client interactions and requests and deliver tasks to best practice standards and client requirements to contribute to building and maintaining effective client relationships and business partnerships.
- Participate in business development activities including assisting in preparation of fee proposals, attending business development meetings and contributing towards opportunities for repeat and new business.
- Identify opportunities for process improvement, capturing lessons learned on projects, and participate in formal lessons learned forums to contribute to improved business performance.
- Work collaboratively with Manager on setting and achieving individual performance and development goals to achieve continuous professional self-development and contribute to the professionalism and technical reputation of the business unit.

Key challenges

- Achieving client and business unit objectives given that strict time, cost and quality parameters apply when managing multiple projects and delivering components.
- Identifying and managing project delivery risks, including safety and environmental risks.
