TAFE NSW offers the best of campus-based delivery as well as flexible, online and work-based learning. The TAFE NSW values of Customer First, Collaboration, Integrity and Excellence guide our team in strengthening communities, delivering world-class training for our students and producing job ready graduates for employers. The operating environment for TAFE NSW is dynamic as we leverage our scale, expertise, passion and reputation to meet the rapidly changing VET landscape.

TAFE NSW is committed to its students and customers and the role it plays in changing lives and opening up opportunities through learning.

### Primary purpose of the role

This position is responsible for leading the project management, overarching coordination and successful delivery of a number of high impact complex projects that together transform business operational models, ways of working and/ or structures. The position ensures strong governance and control of projects, identifying interdependencies and leveraging resources to maximize efficiencies and achieve required organisation benefits and outcomes.

## Key accountabilities

1. Provide leadership and specialised expert advice to manage and oversee all aspects of project planning, development and implementation across the program of projects to achieve objectives within required time and costs constraints.
2. Lead and guide project managers providing project management, control, governance and high level coordination support to specialist teams delivering change, transformation or other complex/multifaceted initiatives across TAFE NSW businesses and functions.
3. Lead and oversee program management components across workstreams, including business cases, project plans, tracking, and progress reporting to ensure project outcomes are achieved on time, on budget, to quality standards and in line with TAFE NSW project governance and management methodology.
4. Oversee effective application of strategies and tools for the continuous monitoring and evaluation of projects, including risk and contingency management, benefits realisation, project impact and quality measures, to identify and address issues, assess project progress and overall effectiveness.
5. Establish, build and oversee management of stakeholder relationships through effective communication, negotiation and issues management to ensure stakeholders, including executive and senior leadership, are engaged, issues are resolved and project deliverables are met.
6. Effectively plan and manage resourcing of program projects within financial parameters including engagement and management of vendor and contract/contingent resources to ensure capacity, capability and flexibility to mitigate risks and meet program requirements.
7. In collaboration with the PMO, provide senior/ executive level reporting to the Program Director on program status, including emerging opportunities and risks and the progress of projects towards milestones and deliverables, to inform key stakeholders and governance forums.
8. Manage interdependencies and coordination across projects within the program and other related organisation strategies, to ensure integrated delivery and minimising adverse business impacts.
9. Assess, manage and appropriately escalate issues and risks to program delivery, providing expert advice to the Program Director on strategies and approaches to ensure mitigation where practicable.
10. Demonstrate a genuine commitment to safety excellence and safety leadership. This includes actively consulting, promoting and contributing to initiatives, monitoring safety performance, and making decisions and acting on health, safety and wellbeing matters.
11. Place the customer at the centre of all decision making.
12. Build and develop a high performance team, aligned to the core values of integrity, collaboration, excellence and a customer first attitude, through effective leadership, support and feedback.
13. Collaborate with staff to ensure the development and regular review of meaningful individual performance development and review plans that are clearly aligned to strategic objectives and focused to develop the individual.

## Key challenges

- Managing complex and sensitive consultations and negotiations across project teams with diverse stakeholders, within agreed timelines, given their varying expectations, viewpoints and interests.
- Achieving multiple project objectives, given limited resources and tight deadlines, and the need to identify project interdependencies and balance competing demands and priorities.
- Controlling potential for project scope creep, and implementing robust protocols, which minimise the financial implications of any unavoidable and/or agreed scope changes, in order to optimise return on investment.
