# **Agency overview**

The Department of Regional NSW was formed in 2020 as a central agency for regional issues. The Department has responsible for building resilient regional economies and communities, strengthening primary industries, managing the use of regional land, overseeing the state's mineral and mining resources and ensuring government investment in regional NSW is fair and delivers positive outcomes for local communities and businesses.

Local Land Services (LLS) is an Executive Agency related to the cluster. It provides quality, customerfocused services to landholders and the community across New South Wales. This regionally-based organisation brings together a wide range of service and advisory functions including agriculture, biosecurity, natural resource management, land management, biodiversity, emergency services, private native forestry and the Soil Conservation Services.

## Primary purpose of the role

The role contributes to the Animal Biosecurity and Welfare service delivery functions for the Local Land Service (LLS) including prevention, preparedness, detection and response activities to animal diseases and animal welfare in line with state and national objectives to contribute to safeguarding the NSW economy, environment and community and meet national and state standards and outcomes.

# Key accountabilities

- Implement priority field animal biosecurity and animal welfare activities to deliver outcomes which
  protect the economy, the environment and the community of NSW
- Contribute to the LLS Animal Biosecurity and Welfare function and team to ensure effective and efficient implementation of strategies and plans and to ensure biosecurity risks are mitigated at the local level
- Implement plans and strategies for engagement with the community and other key stakeholders to
  effectively market, foster commitment to, and enhance understanding of the animal biosecurity and
  welfare functions of the LLS
- Deliver animal biosecurity surveillance activities to ensure rapid identification of new and emerging biosecurity threats and assist in the implementation of response and post recovery programs
- Undertake disease investigations in all species and provide advice and analysis to ensure timely response to biosecurity threats

FOR NSW

INT18/58440 1

- Deliver compliance programs to ensure legislated biosecurity obligations including pest and disease management and livestock traceability meet national performance standards
- Research, analyse and prepare written material on specific issues including, discussion papers, reports, briefing notes and media releases and articles
- Assist in the implementation of the necessary transition to management program where containment and eradication is not feasible

# Key challenges

- Implementing innovative and strategic policies to deal with new and emerging animal biosecurity and welfare issues given the fluid nature of industry and community expectations
- Engaging with and maintaining partnerships with external organisations and varied stakeholders
  and clients in an operating environment that is constantly changing and implementing procedures
  and guidelines to ensure that decisions made and activities undertaken comply with relevant
  legislation, corporate and LLS priorities
- Keeping up to date with professional, technological and environmental developments to ensure the delivery of the most timely, low risk and effective programs and responses and translating priorities, plans and standards into effective on ground, field programs and projects
- Integrating animal biosecurity and welfare priorities and programs with other service delivery initiatives of LLS
