### Agency overview

Transport for NSW (TfNSW) is the lead agency of the NSW Transport cluster. At Transport, we're passionate about making NSW a better place to live, work and visit. Our vision is of a connected roads and public transport network that has higher capacity and gives people the freedom to choose how and when they get around, no matter where they live and work. Right now, we're delivering a \$41.5bn program – the largest this nation has ever seen – to keep people and goods moving, connect communities and shape the future of our cities, centres and regions. At Transport, we're also committed to creating a diverse, inclusive and flexible workforce which reflects the community and the customers we serve.

### Primary purpose of the role

The Transport Operations Manager is an integral strategic team member of a working group team that develops integrated transport and precinct property development-based outcomes. The team is a central point of contact within the transport cluster for private sector developers to discuss proposals, both unsolicited and/or requested. The role will deliver an 'outside parties coordination role' superseding the current fragmented systems across agencies and the TfNSW cluster. The role will provide a transparent, efficient interface process operating with inscrutable probity and direct and improved communication with the private sector.

### Key accountabilities

- Represent Transport for NSW at the highest level across the transport agencies to define and develop workstreams that initiate projects and programs that achieve value for Government.
- Develop strategies that option the development or redevelopment of existing assets to maximize their potential value; encouraging urban growth around Government owned 'assets, land or buildings'.
- Work with the team to develop pathways and clearance strategies that option transport land-use and interface with existing stakeholders to deliver the outcome.

- Coordinate key transport cluster stakeholders to ensure transparency by articulating proposals, ensuring scope and timelines are understood and appropriate governance is initiated for the successful delivery of projects.
- Actively collaborate with transport agencies to ensure that the required transport outcomes and benefits are documented to ensure an auditable financial budget is realised and can be adjusted throughout the implementation phase.
- Responsible and transparent communication across the transport agencies and external agencies to inform government decision for transport related development projects.
- As required initiate property development proposals for private sector involvement that aligns with the creation or renewal of transport infrastructure.

## Key challenges

- Enabling strong team cooperation and collaboration to ensure cross branch sharing of objectives and outcomes with those who are significant partners in the end-to-end process of transport related precinct renewal.
- Championing the development of innovative, commercial solutions for transport related precinct renewal.
- Create strong stakeholder relationships to articulate transport development opportunities across transport and government assets.
- Drive and manage outcomes that may not always be palatable to stakeholders taking them on a journey that creates outcomes that benefit both government and the agency.
- Drive objective that may clash with competing priorities with another stakeholder that or transport agency.
