Classification/Grade/Band	Advisory and Technical Stream, LLS Level 6
Role Family	Projects & Programs
ANZSCO Code	234399
PCAT Code	1119192
Date of Approval	May 2019
Agency Website	www.lls.nsw.gov.au

Agency overview

Local Land Services (LLS) was established in January 2014 to provide quality, customer focused services to landholders and the community across New South Wales. The organisation brings together the agricultural advice, biosecurity, natural resource management, emergency services and Soil Conservation Service functions previously provided by 28 organisations into a single organisation comprising around 950 staff with a budget of approximately \$225 million.

LLS provides products and services that are strongly focused on meeting local customer needs, combined with the strength of being a single organisation governed by the Local Land Services Board. Eleven local regions, Sustainable Land Management and the Soil Conservation Service are responsible for local delivery. Each local region has a local board which is responsible for the oversight of day-to-day operations and local strategic direction in line with state priorities. The regions vary in geographic and organisational size and are supported by the state operations unit.

The Sustainable Land Management business unit provides regulatory services under the Biodiversity Conservation Act 2017 and the Soil Conservation Service is a commercial entity for environmental consulting and soil conservation services.

Primary purpose of the role

The role delivers services to farmers and the community to help them manage our landscapes to be healthy and productive including the provision of natural resource management and agricultural productivity information, advice and extension services; implementation of land management legislation and assessment of related applications; management of major natural resource management and agricultural productivity projects; delivery of emergency planning, preparedness, response and recovery services; development of major partnerships and collaboration; negotiation and resolution of complex natural resource management and agricultural productivity issues; provision of leadership and support to small project teams; monitoring, evaluation, reporting and improvement of programs and projects and contribute to strategic planning.

Key accountabilities

- Provide timely, effective and high quality frontline advisory and extension services to rural landholders and stakeholders, partners and industry groups
- Manage natural resource management and agricultural productivity projects ensuring best-practice governance in line with LLS objectives and initiatives
- Collect and collate data, analyse information and provide accurate and appropriately balanced advice, reports and recommendations on complex natural resource management and agricultural issues
- Write reports and plans to a high level
- Develop major partnerships and support collaboration to address complex natural resource management and agricultural productivity issues
- Lead project teams and facilitate implementation of the Local Land Services Act 2013, Biodiversity Conservation Act 2016 or other legislative responsibilities
- Fulfil identified emergency management roles in local and State level operations as directed by appropriate delegated managers

Key challenges

- Balancing a range of competing priorities and projects in an environment of high workload, rigorous accountability, strict deadlines and high community expectations
- Managing conflicts between natural resource users and negotiating solutions to complex natural resource management and agricultural productivity issues
- Interpreting and applying relevant legislation, policy and procedures and performing field work such as inspections and assessments in all conditions and terrains, including in emergency response situations
