ANZSCO Code	234312
PCAT Code	1119192
Date of Approval	December 2021
Agency Website	www.drnsw.nsw.gov.au or www.publicworks.nsw.gov.au

Agency overview

The Department of Regional NSW was formed in 2020 as a central agency for regional issues. The Department is responsible for building resilient regional economies and communities, strengthening primary industries, managing the use of regional land, overseeing the state's mineral and mining resources and ensuring government investment in regional NSW is fair and delivers positive outcomes for local communities and businesses.

Public Works Advisory (PWA) is part of the Department of Regional NSW. PWA supports local and state government agencies to deliver critical infrastructure initiatives by providing expert advisory, planning, delivery and support services. Our work is in the hospitals, dams, water treatment plants and high schools – the real foundations of prosperous communities. Every day we help shape the ambitious projects that bring progress to more people in NSW. From forging a more sustainable relationship with the land around us, to engineering the big ideas of the future. In every challenge we see the chance to build stronger and more connected communities.

In PWA offices all over the state, you'll find local expertise for local issues. We uncover the best talent, scrutinise cost and risk, and bridge the gap between private sector and government

Primary purpose of the role

Provide land use planning advice and technical support that responds to client needs and ensures the consistent delivery of outcomes, within agreed timeframes and budget, to deliver the client's objectives and critical success factors.

The role also contributes to the operation of the service line so that it is a viable commercial business providing value for money for clients.

Key accountabilities

- Provide specialised land use planning advice to clients and senior management in order that Government and clients receive optimal technical, economic and environmental solutions.
- Collaborate with the Senior Environmental Planner in the delivery of large and complex planning projects to the agreed quality, and within time and budget constraints.
- Assist and guide the Environmental Planning Officer/s in identifying appropriate planning pathways and delivery of planning advice to ensure operational requirements are met.
- Provide assistance, where necessary, to the Environment and Planning team in the preparation and delivery of high quality environmental impact assessments for a wide range of infrastructure projects.
- Identify the learning and development needs for yourself to build on technical and project delivery capability.
- Demonstrate a safety culture which is focused on implementation of the Public Works Advisory (PWA) Safety Management System and processes to meet legislative and safety certification requirements.
- Provide a high quality advisory service, providing environmental planning information and advice to inform and respond to client needs.

Key challenges

- Working within a team environment and projects across numerous disciplines, whilst promoting and sustaining a client centric team culture.
- Developing and applying innovative planning solutions to challenging infrastructure projects within agreed time, budget and financial parameters.
- Creating and maintaining strong working relationships with clients and industry stakeholders in an environment of strong competition while managing current workloads.

Key relationships

Who	Why
Internal	
Principal Environmental Scientist / Senior Environmental Planner	<ul style="list-style-type: none"> • Provide advice and escalate issues, keep informed, advise, receive guidance and instructions • Identify business development opportunities • Participate in discussions and decisions regarding service delivery and operational improvement
Work Team	<ul style="list-style-type: none"> • Work collaboratively to achieve business outcomes • Participate in discussions and meetings regarding solution development and to share information

External	
Clients and Stakeholders	<ul style="list-style-type: none"> • Provide advice relating to environmental planning and assist in resolving issues within technical expertise, to achieve cost effective solutions • Develop an understanding of key client needs, issues and priorities

Role dimensions

Decision making

The incumbent has autonomy and authority to make decisions in accordance with the delegations of authority specific to the role of Environmental Planner. This role is fully accountable for the delivery of work assignments on time and to expectations in terms of quality, deliverables and outcomes.

Reporting line

This role reports to the Senior Environmental Planner / Principal Scientist.

Direct reports

This role does not have any direct reports.

Budget/Expenditure

As per the PWA Delegations Manuals

Contribute to the achievement of annual revenue and net cost of services targets and deliver projects to budget.

Key knowledge and experience

- Demonstrated knowledge and understanding of NSW planning legislation and environmental planning instruments including the State Environmental Planning Policy (Infrastructure) 2007.
- Experience providing environmental planning advice and the application of environmental legislation for public infrastructure projects.
- Experience in the preparation of environmental impact assessment documents, including knowledge of key legislation and requirements.
- Experience using advanced technology/mapping tools/GIS.

Essential requirements

- Degree in Environmental Planning or equivalent with eligibility for member status to the Environment Institute of Australia and New Zealand, or equivalent in the discipline.
- A valid NSW Driver's licence and willingness to drive to remote locations which may include overnight stays.
- Evidence of the COVID-19 vaccination must be provided upon commencement of employment. This is a condition of engagement should you be successfully appointed to a position within the Department of Regional NSW (which includes Local Land Services and the Soil Conservation Service).

Capabilities for the role

The [NSW public sector capability framework](#) describes the capabilities (knowledge, skills and abilities) needed to perform a role. There are four main groups of capabilities: personal attributes, relationships, results and business enablers, with a fifth people management group of capabilities for roles with managerial responsibilities. These groups, combined with capabilities drawn from occupation-specific capability sets where relevant, work together to provide an understanding of the capabilities needed for the role.

The capabilities are separated into focus capabilities and complementary capabilities

Focus capabilities

Focus capabilities are the capabilities considered the most important for effective performance of the role. These capabilities will be assessed at recruitment.

The focus capabilities for this role are shown below with a brief explanation of what each capability covers and the indicators describing the types of behaviours expected at each level.

Focus capabilities

Capability group/sets	Capability name	Behavioural indicators	Level
 <p>Personal Attributes</p>	<p>Manage Self</p> <p>Show drive and motivation, an ability to self-reflect and a commitment to learning</p>	<ul style="list-style-type: none"> Adapt existing skills to new situations Show commitment to achieving work goals Show awareness of own strengths and areas for growth, and develop and apply new skills Seek feedback from colleagues and stakeholders Stay motivated when tasks become difficult 	Intermediate
 <p>Relationships</p>	<p>Commit to Customer Service</p> <p>Provide customer-focused services in line with public sector and organisational objectives</p>	<ul style="list-style-type: none"> Take responsibility for delivering high-quality customer-focused services Design processes and policies based on the customer's point of view and needs Understand and measure what is important to customers Use data and information to monitor and improve customer service delivery Find opportunities to cooperate with internal and external stakeholders to improve outcomes for customers Maintain relationships with key customers in area of expertise Connect and collaborate with relevant customers within the community 	Adept
 <p>Relationships</p>	<p>Work Collaboratively</p> <p>Collaborate with others and value their contribution</p>	<ul style="list-style-type: none"> Build a supportive and cooperative team environment Share information and learning across teams Acknowledge outcomes that were achieved by effective collaboration Engage other teams and units to share information and jointly solve issues and problems Support others in challenging situations Use collaboration tools, including digital technologies, to work with others 	Intermediate

	<p>Deliver Results</p> <p>Achieve results through the efficient use of resources and a commitment to quality outcomes</p>	<ul style="list-style-type: none"> • Use own and others' expertise to achieve outcomes, and take responsibility for delivering intended outcomes • Make sure staff understand expected goals and acknowledge staff success in achieving these • Identify resource needs and ensure goals are achieved within set budgets and deadlines • Use business data to evaluate outcomes and inform continuous improvement • Identify priorities that need to change and ensure the allocation of resources meets new business needs • Ensure that the financial implications of changed priorities are explicit and budgeted for 	<p>Adept</p>
	<p>Think and Solve Problems</p> <p>Think, analyse and consider the broader context to develop practical solutions</p>	<ul style="list-style-type: none"> • Identify the facts and type of data needed to understand a problem or explore an opportunity • Research and analyse information to make recommendations based on relevant evidence • Identify issues that may hinder the completion of tasks and find appropriate solutions • Be willing to seek input from others and share own ideas to achieve best outcomes • Generate ideas and identify ways to improve systems and processes to meet user needs 	<p>Intermediate</p>
	<p>Project Management</p> <p>Understand and apply effective planning, coordination and control methods</p>	<ul style="list-style-type: none"> • Perform basic research and analysis to inform and support the achievement of project deliverables • Contribute to developing project documentation and resource estimates • Contribute to reviews of progress, outcomes and future improvements • Identify and escalate possible variances from project plans 	<p>Intermediate</p>

Complementary capabilities

Complementary capabilities are also identified from the Capability Framework and relevant occupation-specific capability sets. They are important to identifying performance required for the role and development opportunities. Note: capabilities listed as 'not essential' for this role are not relevant for recruitment purposes however may be relevant for future career development.

Capability group/sets	Capability name	Description	Level
 Personal Attributes	Display Resilience and Courage	Be open and honest, prepared to express your views, and willing to accept and commit to change	Foundational
 Personal Attributes	Act with Integrity	Be ethical and professional, and uphold and promote the public sector values	Foundational
 Personal Attributes	Value Diversity and Inclusion	Demonstrate inclusive behaviour and show respect for diverse backgrounds, experiences and perspectives	Foundational
 Relationships	Communicate Effectively	Communicate clearly, actively listen to others, and respond with understanding and respect	Intermediate
 Relationships	Influence and Negotiate	Gain consensus and commitment from others, and resolve issues and conflicts	Foundational
 Results	Plan and Prioritise	Plan to achieve priority outcomes and respond flexibly to changing circumstances	Intermediate
 Results	Demonstrate Accountability	Be proactive and responsible for own actions, and adhere to legislation, policy and guidelines	Intermediate
 Business Enablers	Finance	Understand and apply financial processes to achieve value for money and minimise financial risk	Foundational
 Business Enablers	Technology	Understand and use available technologies to maximise efficiencies and effectiveness	Intermediate
 Business Enablers	Procurement and Contract Management	Understand and apply procurement processes to ensure effective purchasing and contract performance	Foundational
