Agency overview

The Department of Regional NSW was formed in 2020 as a central agency for regional issues. The Department has responsibility for building resilient regional economies and communities, strengthening primary industries, managing the use of regional land, overseeing the state's mineral and mining resources and ensuring government investment in regional NSW is fair and delivers positive outcomes for local communities and businesses.

Local Land Services (LLS) is an Executive Agency related to the cluster. It provides quality, customer-focused services to landholders and the community across New South Wales. This regionally-based organisation brings together a wide range of service and advisory functions including agriculture, biosecurity, natural resource management, land management, biodiversity, emergency services, private native forestry and the Soil Conservation Service.

Primary purpose of the role

Leads and coordinates a team of specialists in the delivery of Animal Biosecurity and Welfare functions for the Local Land Service (LLS) in the prevention, preparedness, detection and response activities to animal diseases and animal welfare in line with state and national objectives to contribute to safeguarding the NSW economy, environment and community and meet national and state standards and outcomes.

Key accountabilities

- In collaboration with the Manager and Team Leader, Invasive Species & Plant Health, ensure the objectives of the NSW Biosecurity Strategy 2013-2021 are met at a regional level through effective delivery of Animal Biosecurity and Welfare and Emergency Response strategic, business and functional plans
- Lead the LLS Animal Biosecurity and Welfare function and team to ensure effective and efficient implementation of strategies and plans
- Develop and implement strategies and plans for engagement with the community and other key stakeholders to effectively market, foster commitment to, and enhance understanding of the animal biosecurity and welfare functions of the LLS

- Lead animal biosecurity and welfare project and program budgets and resources, develop and implement work plans and establish and deploy multi-disciplinary project teams to deliver the required outcomes in a timely and cost effective manner and commensurate with priorities and standards to ensure biosecurity risks are mitigated at the local level
- Implement state and national animal biosecurity and welfare programs (NSW Biosecurity Strategy and Animal Biosecurity and Welfare Strategic Plan and Business Plan) at a regional and local level and with Biosecurity NSW (DPI) and LLS clients, priority field animal biosecurity and animal welfare activities to deliver outcomes which protect the economy, the environment and the community of NSW
- Lead compliance and enforcement programs to ensure legislated biosecurity obligations including pest and disease management and livestock traceability meet national performance standards
- Develop and manage animal biosecurity surveillance activities to ensure rapid identification of new and emerging biosecurity threats and undertake disease investigations in all species as directed by the NSW Chief Veterinary Officer to ensure timely response to biosecurity threats
- Research, analyse, provide expert advice and prepare written material on specific issues including, discussion papers, reports, briefing notes and media releases and articles

Key challenges

- Building a strong Animal Biosecurity and Welfare team in a values based, results driven culture of positive customer focus and implementing innovative and strategic policies to deal with new and emerging animal biosecurity and welfare issues given the fluid nature of industry and community expectations
- Leading strong partnerships with external organisations and varied clients in an operating environment that is constantly changing and maintaining alignment between LLS activity and the Government’s broader policies affecting NSW primary industries given that the Government’s agenda may conflict with industry priorities
- Keeping up to date with professional, technological and environmental developments to ensure the delivery of the most timely, low risk and effective programs and responses and translating priorities, plans and standards into effective procedures and guidelines and on ground, field programs and projects to meet LLS objectives
- Providing leadership in the delivery of integrated services in a complex team and business environment
