# **Agency overview**

Sydney Trains provides train services throughout the Sydney metropolitan area and was established in July 2013. Its vision is to keep Sydney moving by putting the customer at the centre of everything it does and delivering safe, reliable and clean rail services to the people of Sydney. The organisation is focused on providing sustainable, efficient and cost effective services.

# Primary purpose of the role

The role of Systems Solutions Coordinator is to provide day to day systems support to mobile device users throughout Train Crewing and Support (TCS) Directorate.

The role is responsible for coordinating all mobility-related device deployment, training, delivery of system enhancements and new apps, managing upgrades and ongoing device replacements as well as facilitating the delivery of procurement, service and business requirements.

## Key accountabilities

- Provide onsite support to end users to setup mobile devices in readiness for Day of Operations
- Maintain sustainability and user functionality of key internal and external transport apps
- Mitigate risks and ensure seamless transitions for end users for software and application updates
- Develop, coordinate and deliver mobility devices training to end users on a timely basis

- Maintain hardware stock, currency of asset register and device upgrade programs as required
- Coordinate the production and distribution of communications, quick reference guides and the crew mobility Intranet support page
- Monitor and analyse iPad usage trends to identify reliability improvement opportunities for current crew apps and the creation of new apps for mobility services and ongoing support for all system users
- Live the NSW Public Sector and organisational values to achieve outstanding outcomes for the organisation and customers
- Execute safety responsibilities, authorities and accountabilities consistent with Sydney Trains safety management system requirements which are defined in SMS document number SMS-02-RG-3058

### **Key challenges**

- Managing the mobility device deployment and support workload in peak times in a dynamic operational environment with competing priorities
- Supporting and providing technological based solutions to a wide range of end users with varying technology support teams including IT

## **Key relationships**

| Who                             | Why  |
|---------------------------------|--|
| Internal                        |  |
| Systems Solutions Lead          | <ul> <li>Receive guidance and direction</li> <li>Consult and provide accurate advice and information</li> <li>Engage and seek support and ensure that all perspectives and implications are considered in decision making</li> </ul> |
| Internal Stakeholders  External | Provide customer service and respond to mobility requests in a timely manner   |
| TfNSW – Group Rail IT           | Resolution of technology issues, identification of opportunities   |

#### **Role dimensions**

#### **Decision making**

This role is fully accountable for mobility device deployment and support.

Independent decision making requirements of the role include:

- Training mobility support services as required
- Coordination and supervision of Mobility Trainers (Guard/Driver Trainers) for training course delivery and intensive support campaigns (e.g. new app rollouts)

Collaborative decision making requirements of the role include:

- Prioritisation of tasks with Systems Solutions Lead
- System enhancements and deployment
- Support mechanisms

Reporting line
Systems Solutions Lead
Direct reports

**Budget/Expenditure** 

TBC

## **Essential requirements**

- Tertiary qualification in a business/IT orientated discipline, or relevant experience
- Experience in mobile device asset management and technical user support

## Capabilities for the role

The NSW Public Sector Capability Framework applies to all NSW public sector employees. The Capability Framework is available at <a href="https://www.psc.nsw.gov.au/capabilityframework">www.psc.nsw.gov.au/capabilityframework</a>
