Agency overview

The Department of Regional NSW was formed in 2020 as a central agency for regional issues. The Department is responsible for building resilient regional economies and communities, strengthening primary industries, managing the use of regional land, overseeing the state's mineral and mining resources and ensuring government investment in regional NSW is fair and delivers positive outcomes for local communities and businesses.

Regional Development and Programs is part of the Department of Regional NSW and supports local and state government agencies to deliver critical infrastructure initiatives by providing expert advisory, planning, delivery, and support services. We bridge the gap between the government and the private sector, helping clients to maximise value, optimise costs and manage risks in their infrastructure programs and the lifecycle management of their assets.

Regional Development works with state and local government agencies, regional communities, business and other stakeholders to drive the NSW Government's regional priorities and deliver better outcomes for the people living and working in regional NSW.

Primary purpose of the role

The Senior Project Officer manages and coordinates the development, implementation and evaluation of complex projects to achieve project outcomes and support the achievement of organisational objectives.

Key accountabilities

- Manage and oversee all aspects of project planning, development and implementation for a range of projects, including developing project plans, coordinating resources, managing budgets, meeting reporting requirements, and supporting project-related activities, to ensure project outcomes are achieved on time, on budget, to quality standards and within agreed scope in line with established agency project management methodology

- Establish and maintain stakeholder relationships through effective communication, negotiation and issues management to engage stakeholders and ensure project deliverables are met
- Monitor and evaluate all aspects of project implementation, including risk and contingency management, benefits realisation, project impact and quality measures, to identify and address issues, assess project progress and effectiveness, and achieve project outcomes
- Manage a project team/s, ensuring compliance with governance and quality requirements, to successfully deliver all key project/s milestones and outcomes
- Undertake research and formulate recommendations to support evidence-based project planning and decision making
- Provide advice and information to stakeholders on emerging project issues and to support project development and delivery in line with established plans, budgets, timeframes, policy objectives and other project and priorities

Key challenges

- Managing consultations and negotiations with diverse stakeholders, within agreed timelines, given their varying expectations, viewpoints and interests
- Achieving project deadlines and milestones to the required standards and within budget, given the need to simultaneously coordinate and deliver multiple projects which are often complex and interconnected
