

Role Description

Project Engineer

Regional
NSW

Cluster	Regional NSW
Agency	Department of Regional NSW
Division/Branch/Unit	Public Works and Soil Conservation Service
Location	Sydney
Classification/Grade/Band	Clerk Grade 7/8
Role Family	Bespoke/Science & Engineering/Deliver
ANZSCO Code	233211
PCAT Code	1112292
Date of Approval	17 November 2017 (updated July 2019 and April 2020)
Agency Website	www.drnsnsw.nsw.gov.au or www.publicworks.nsw.gov.au

Agency overview

The Department of Regional NSW was formed in 2020 as a central agency for regional issues. The Department is responsible for building resilient regional economies and communities, strengthening primary industries, managing the use of regional land, overseeing the state's mineral and mining resources and ensuring government investment in regional NSW is fair and delivers positive outcomes for local communities and businesses.

NSW Public Works is part of the Department of Regional NSW and supports local and state government agencies to deliver critical infrastructure initiatives by providing expert advisory, planning, design, delivery, and support services. Our work is in the hospitals, dams, water treatment plants and high schools – the real foundations of prosperous communities. Every day we help shape the ambitious projects that bring progress to more people in NSW. From forging a more sustainable relationship with the land around us, to engineering the big ideas of the future. In every challenge we see the chance to build stronger and more connected communities.

Primary purpose of the role

Provide engineering expertise which responds to client needs to ensure the consistent delivery of outcomes, including project quality, agreed timeframes and budget, in accordance with WHS policies and procedures, in order to deliver the client's objectives and critical success factors. Contribute to the operation of the service line so that it is a viable commercial business providing value for money for clients.

Key accountabilities

- Provide specialised engineering and technical advice to clients and team members in order that Government and clients receive optimal technical, economic and environmental solutions.
- Identify the learning and development needs of yourself so as to ensure a high level of technical and project delivery capability.

- Demonstrate a safety culture which is focused on implementation of the Public Works Advisory (PW) Safety Management System and processes to meet legislative and safety certification requirements.
- Promote the technical and project capabilities of PW and the team to external and internal clients in order to ensure the growth and viability of the business.
- Demonstrate client excellence by being responsive to client needs.
- Manage projects and ensure they are clearly scoped, and that delivery is to the agreed quality, time and budget constraints, with client expectations met.

Key challenges

- Working within a team environment and projects across numerous disciplines, whilst sustaining a client centric team culture.
- Delivering high-quality technical advice and innovative projects within agreed time, budget and financial parameters and with consideration of industry and technical trends and Governmental and regulatory requirements.
- Maintaining strong working relationships with internal and external clients while managing current workloads.

Key relationships

Who	Why
Internal	
Principal Engineer	<ul style="list-style-type: none"> • Contribute to broader team issues • Provide expert advice and guidance on issues • Identify business development opportunities • Escalate issues, keep informed, advise, receive guidance and instructions • Participate in discussions and decisions regarding service delivery and operational improvement
Work Team	<ul style="list-style-type: none"> • Work collaboratively to achieve business outcomes • Participate in discussions and decisions regarding solution development • Support team members and work collaboratively to contribute to achieving the team's business outcomes • Participate in meetings to share information and provide input on issues
Client/Customer	<ul style="list-style-type: none"> • Provide expert advice to achieve cost effective solutions • Respond to resourcing challenges and propose effective solutions within budget and service delivery constraints • Respond to queries and resolve issues • Provide expert services relating to urban water infrastructure • Ensure effective communication, seek clarification and provide advice and responses to ensure prompt resolution of issues • Address/respond to queries and provide solutions where possible, or redirect query to relevant area
External	

Clients and Stakeholders

- Provide expert advice to achieve cost effective solutions
 - Respond to resourcing challenges and propose effective solutions within budget and service delivery constraints
 - Respond to queries and resolve issues
 - Provide expert services relating to urban water infrastructure
 - Ensure effective communication, seek clarification and provide advice and responses to ensure prompt resolution of issues
 - Address/respond to queries and provide solutions where possible, or redirect query to relevant area
 - Collaborate and engage with clients and stakeholders to build strong relationships based on mutual trust and respect
 - Develop an understanding of key needs, issues and priorities
-

Role dimensions

Decision making

The incumbent has autonomy and authority to make decisions in accordance with the delegations of authority specific to the role of Project Engineer. This role is fully accountable for the delivery of work assignments on time and to expectations in terms of quality, deliverables and outcomes.

Reporting line

Principal Engineer

Direct reports

Nil

Budget/Expenditure

Contribute to the achievement of annual revenue and net cost of services targets and deliver projects to budget.

Essential requirements

- Degree in a nominated engineering discipline with eligibility for member status of Professional Engineer of Engineers Australia.
- Substantial knowledge and experience in the nominated engineering discipline.
- Proven experience in managing project teams within a commercial environment including client, project and resource management.
- Experience in the project/design management of phases of design for complex multi-disciplinary water engineering projects including sound knowledge of various specialist disciplines involved such as hydrology, hydraulics, geotechnical engineering, structural engineering, mechanical engineering.
- A valid NSW Driver's license and willingness to drive to remote locations which may include overnight stays.

Capabilities for the role

The NSW Public Sector Capability Framework applies to all NSW public sector employees. The Capability Framework is available at www.psc.nsw.gov.au/capabilityframework

Focus capabilities

The focus capabilities for the role are the capabilities in which occupants must demonstrate immediate competence. The behavioural indicators provide examples of the types of behaviours that would be expected at that level and should be reviewed in conjunction with the role's key accountabilities.

NSW Public Sector Capability Framework
